Celebrating 26 Years!

O'Fishel

GLATT KOSHER NEVER TOGETHER CHOLOV YISROEL

O'Fishel Kosher Caterers, Baltimore For All Your Food Service & Catering Needs

Mazel Tov to the following families who made it O'Fishel at their recent weddings: Grants, Weingots, Bernsteins, Troppers, Ribats, Meisters. Special Mazel Tov to our favorite activist, radio personality, team coach, columnist, legal eagle, media darling, and O'Fishel alumnus and his spousal fitness guru-ette, Aharon and Malkie Raskas, on Ari's Bar Mitzvah. That's a chazaka for us, but a first for Ari.

Most wedding dates for the post-Tisha B'Av season are now filled.

Call now for post-Sukkos dates (and remember: you can make it O'Fishel even before its official). O'Fishel is proud to cater more Kosher weddings (התוכנית) with delicious Kosher food than any other caterer in Maryland! O'Fishel caters simchas at all finer shuls and hotels, including: Martin's West, Wyndham, Michael's 8th Ave, Hiltons, Marriott (Hunt Valley & Downtown),

Weekday Wedding Packages from Only \$26/person* @ LJC

We Support Our Troops... AND THEIR MISSION!

O'Fishel Kosher Caterers joins the community in welcoming back and profoundly thanking

Rabbi Mitchell Ackerson

for the outstanding services he and ruba d'ruba of our troops provide. As a token of our appreciation, Rabbi Ackerson and his family will enjoy an O'Fishel MRE (Most Respected Essen) Shabbos Meal. Call to let us know when you'd like it!

We do BBQ's!

Your location or ours. Call for details!

As the cicada season wanes, in order to preserve their memory (if you can't afford the gilded ones and only eat Cholov Yisroel), please submit your true (or almost-true) anecdotes. If we print your submission, you will receive a supply of ??????????????

Thanks to the M.J. Berman Hebrew Academy of Greater Washington for making their Spring Shabbaton Retreat O'Fishel in Washington County. Best of luck to the grads, and a special Mazel Tov to Dr. Cliff & Barbara Price on little Ari's graduation. The first five people who can tell us how many years the Prices have had a family member in the Hebrew Academy or who get this ad signed by 5 Prices will Win O'Fishel Cholent and Kugel for the family (and of course for the Prices)!

Answer's to Last Month's Brain Strain:

Q. Little Moshe "Quick Hands" Shapiro acquired a genuine half Shekel coin from the time of the Second Bais Hamikdash. However, it was in a bag of 11 counterfeit coins. Moshe knew that the only difference was that the phonies, which weighed the same as each other, weighed slightly different than the actual coin. Using his balance scale, he unequivocally discerned which coin was his in three tries. How? We found several people at least as bright as young Moshe Q. H. Shapiro, who were up to the challenge. Some of them even show whether the counterfeit coins were heavier or lighter than the real one. Here are their correct answers. If you submitted a correct answer by June 5, call for your prize. To all others, close, but no cicada!

Answer 1: Akiva Shavrick

Label the coins 1 - 12, and do three weighings:

- 1st Weighing Left Pan 4, 8, 10, 11 Right Pan 1, 2, 5, 7
2nd Weighing 2, 4, 7, 12 3, 5, 6, 11
3rd Weighing 5, 6, 10, 12 7, 8, 9, 11

Answer 2: Aryeh Klugman

- Begin by weighing coins 1-2-3-4 on one side, and coins 5-6-7-8 on the other side.
a) If even, then weigh coin 9 on one side, and coin 10 on the other side.
i) If even, then weigh coin 11 on one side and coin 1 on the other side.
(1) If even, then real coin is coin 12, if not, the real coin is coin 11
ii) If not even, then weigh coin 9 on one side and coin 1 on the other
(1) If even, the real coin is coin 10. If not, the real coin is coin 9
b) If 1-2-3-4 is heavier, then weigh coins 5-6-1-2 on one side and coins 3-9-10-11 on the other
i) If even, then weigh coin 7 on one side and coin 8 on the other side
(1) If even, then real coin is coin 4. If 7 is heavier, the real coin is coin 8. If 8 is heavier, then real coin is coin 7
ii) If 5-6-1-2 is heavier, then weigh coin 1 on one side and coin 2 on the other side
(1) If 1 is heavier, then real coin is coin 1. If 2 is heavier, the real coin is coin 2
iii) If 3-9-10-11 is heavier, weigh coin 5 on one side and coin 6 on the other side
(1) If even, the real coin is coin 3. If 5 is heavier, the real coin is coin 6. If 6 is heavier, the real coin is coin 5
c) If 5-6-7-8 is heavier, then weigh coins 1-2-5-6 on one side and coins 7-9-10-11 on the other side
i) If even, then weigh coin 3 on one side and coin 4 on the other side
(1) If even, then real coin is coin 8. If 3 is heavier, the real coin is coin 4. If 4 is heavier, then real coin is coin 3.
ii) If 1-2-5-6 is heavier, then weigh coin 5 on one side and coin 6 on the other side.

- (1) If 5 is heavier, then real coin is coin 5. If 6 is heavier, the real coin is coin 6.
iii) If 7-9-10-11 is heavier, then weigh coin 1 on one side and coin 2 on the other side.
(1) If even, then real coin is coin 7. If 1 is heavier, the real coin is coin 2. If 2 is heavier, the real coin is coin 1.

Answer 3: Lara Diamond

Weighing 1: Balance coins {1, 2, 3, 4} against {5, 6, 7, 8}
Weighing 2: Balance coins {1, 5, 9, 10} against {2, 3, 6, 11}
Weighing 3: Balance coins {2, 7, 9, 12} against {1, 3, 8, 10}
Then the results are unique to the different coin. Look in the "results" column: any weighing pattern uniquely identifies the coin and whether it's heavier or lighter!

Table with 5 columns: Diff coin & lighter or heavier, What is L side of scale like for Weighing 1, What is L side of scale like for Weighing 2, What is L side of scale like for Weighing 3, Result
